

Thank you from the Califon School Playground Committee

Many thanks to all the came out to help with the installation of the new playground! Installation began on October 3rd and was completed on November 15th. Our little school has a lot to be proud of!!!

Huge appreciation goes to JK Hoffman and Sons Excavating, Volvo Rents, LCW Excavating. All their time and machinery was donated. This was a substantial financial donation towards the Playground Project.

It is great to hear voices and laughter in the playground after school is out.... The Playground is a great addition to the school, but it also is a wonderful contribution to our community.

Respectfully Submitted,

Kelly Galligan
